

The 36th Chinese Control Conference

Plenary Panel Session Chair

Jie Chen serves as the Vice President of the Beijing Institute of Technology. He is the Chair of the State Key Laboratory of Intelligent Control and Decision of Complex Systems, a Leader of the “Innovative Research Groups of the National Natural Science Foundation of China”. He is an awardee of the “National Science Fund for Distinguished Young Scholars”. He was also honored as the “Changjiang Scholar”. He is the chief scientist of a 973 program. He is a member of the Review Panel on Control Science and Engineering, the Chinese State Council Academic Degrees Committee, and a member of the Science and Technology Committee, the Ministry of Education, P.R. China.

He serves as a Vice President of the Chinese Association of Automation, a Deputy Director of the Technical Committee on Control Theory, Chinese Association of Automation, a Deputy Editor-in-Chief for the Book Series on Systems and Control, a Managing Editor for the Journal of Systems Science and Complexity, an Associate Editor for the journals IEEE Trans. on Cybernetics, International Journal of Robust and Nonlinear Control, Science China Information Sciences, and Control Theory & Technology. His main research interest is the multi-objective optimization, decision, and control of complex systems in dynamic environments. In recent years, he as a Principle Investigator was granted a 2nd-Grade National Natural Science Award of China, two 2nd-Grade National Science and Technology Progress Awards, and four 1st-Grade Provincial Awards.
